

Plant Application Guide

The following lists are compiled using general climatic conditions which exist in Arizona, California, and Nevada. Check your local conditions to confirm the suitability of the plant material for a specific location. The height and width specifications provided in this section are only estimates. The ultimate size of the plant at maturity will vary depending upon the climate and soil types.

TREES: Large (40' and up)

Large growing trees are used for boulevards and other grand scale street or parking lot projects. They can be used for climate control in hot climates where space permits.

Acer macrophyllum	Cupressus sempervirens 'Glaucua'	Phoenix canariensis	Quercus douglasii
Acer platanoides 'Crimson King'	Eucalyptus citriodora	Picea pungens 'Glaucua'	Quercus ilex
Acer platanoides 'Easy Street'™	Eucalyptus globulus 'Compacta'	Pinus canariensis	Quercus lobata
Acer rubrum 'October Glory'®	Eucalyptus maculata	Pinus eldarica	Quercus rubra (borealis)
Acer rubrum 'Red Sunset'®	Fagus sylvatica 'Riversii'	Pinus halepensis	Quercus shumardii
Acer saccharinum	Fagus sylvatica 'Tricolor'	Pinus jeffreyi	Quercus suber
Acer X fre. 'Autumn Blaze'®	Fraxinus ame. 'Autumn Purple'®	Pinus nigra	Quercus virginiana
Acer X fre. 'Autumn Fantasy'® (P.P.)	Fraxinus holotricha 'Moraine'	Pinus pinea	Quercus wislizenii
Aesculus carnea	Fraxinus oxycarpa 'Raywood'	Pinus radiata	Robinia X 'Purple Robe'
Alnus rhombifolia	Fraxinus uhdei 'Orange County'	Pinus roxburghii	Salix babylonica
Betula nigra 'Duraheat'®	Fraxinus vel. 'Modesto'	Pinus thunbergii	Sequoia sem. 'Aptos Blue'
Carpinus betulus 'Fastigiata'	Grevillea robusta	Pinus torreyana	Sequoia sem. 'Los Altos'
Catalpa speciosa	Libocedrus (Calocedrus) decurrens	Pistacia chi. 'Keith Davey'	Sequoia sem. 'Santa Cruz'
Cedrus atlantica 'Glaucua'	Liquidambar sty. 'Burgundy'	Pistacia chinensis	Sequoia sem. 'Soquel'
Cedrus deodara	Liquidambar sty. 'Festival'	Platanus ace. 'Bloodgood'	Sequoiadendron gigantea
Celtis australis	Liquidambar sty. 'Palo Alto'	Platanus ace. 'Columbia'	Sophora japonica 'Regent'
Celtis occidentalis	Liquidambar sty. 'Rotundiloba'	Platanus ace. 'Yarwood'	Ulmus hybrid 'Frontier'
Celtis sinensis	Liquidambar styraciflua	Platanus racemosa	Ulmus parvifolia 'Allee'®
Chitalpa tas. 'Morning Cloud'	Liriodendron tulipifera	Populus bal. 'Mojave Hybrid'	Ulmus parvifolia 'Drake'
Chitalpa tas. 'Pink Dawn'	Magnolia gra. 'D.D. Blanchard'	Populus fremontii	Umbellularia californica
Chorisia speciosa	Magnolia gra. 'Saint Mary'	Populus nigra 'Italica'	Washingtonia robusta
Cinnamomum camphora	Magnolia gra. 'Samuel Sommer'	Populus tremuloides	Zelkova serrata 'Village Green'™
Cocos plumosa (Arecastrum, Syagrus)	Magnolia grandiflora	Quercus agrifolia	
Cupressus macrocarpa	Morus alba 'Fruitless'	Quercus coccinea	

TREES: Medium (20' - 40')

Medium growing trees are used for home landscapes and street projects where space is a consideration. They can be used effectively for climate control and accents in the garden and smaller commercial projects.

Acacia baileyana	Cupania anacardioides	Lagerstroemia X 'Arapaho'	Prunus yedoensis 'Akebono'
Acacia baileyana 'Purpurea'	Cupressocyparis leylandii	Lagerstroemia X 'Choctaw'	Pyrus cal. 'Aristocrat'®
Acacia melanoxylon	Cupressus glabra (arizonica)	Lagerstroemia X 'Muskogee'	Pyrus cal. 'Bradford'
Acacia smallii (farnesiana)	Dalbergia sissoo	Lagerstroemia X 'Natchez'	Pyrus cal. 'Capital'
Acacia stenophylla	Elaeocarpus decipiens	Lagerstroemia X 'Tuscarora'	Pyrus cal. 'Chanticleer'®
Acer palmatum	Erythrina caffra	Lagerstroemia X 'Zuni'	Pyrus cal. 'New Bradford'®
Acer rubrum 'Bowhall'	Eucalyptus ficifolia	Laurus nobilis	Pyrus cal. 'Red Spire'
Aesculus californica	Eucalyptus leucoxylon	Laurus 'Saratoga'	Pyrus kawakamii
Agonis flexuosa	Eucalyptus microtheca	Ligustrum lucidum	Rhus lancea
Albizia julibrissin	Eucalyptus nicholii	Lyonothamnus floribundus	Sambucus mexicana
Alnus cordata	Eucalyptus polyanthemus	Magnolia gra. 'Little Gem'	Sapium sebiferum
Arbutus 'Marina'	Eucalyptus sideroxylon	Magnolia sou. 'Alexandrina'	Schefflera pueckleri (Tupidanthus)
Bauhinia variegata (purpurea)	Ficus benjamina	Magnolia sou. 'Rustica Rubra'	Schinus molle
Betula jacquemontii	Ficus mic. nitida	Magnolia soulangeana	Schinus terebinthifolius
Betula pendula	Ficus mic. nitida 'Green Gem'	Maytenus boa. 'Green Showers'	Sorbus aucuparia
Betula pendula atropurpurea	Fraxinus vel. 'Rio Grande'	Maytenus boaria	Strelitzia nicolai
Brachychiton populneus	Fraxinus velutina	Melaleuca linariifolia	Taxus baccata 'Stricta'
Callistemon viminalis	Geijera parviflora	Melaleuca quinquenervia	Tabebuia chrysotricha
Ceratonia siliqua	Ginkgo biloba 'Autumn Gold'	Nyssa sylvatica	Tabebuia impetiginosa (ipe)
Cercidium floridum	Ginkgo biloba 'Fairmount'	Olea eur. 'Swan Hill'™	Tilia cordata 'Greenspire'®
Cercidium hybrid (Parkinsonia)	Gleditsia tri. ine. 'Shademaster'®	Olea eur. 'Treeland Low Fruiting'	Tipuana tipu
Cercis can. 'Forest Pansy'	Gleditsia tri. ine. 'Sunburst'®	Olea eur. 'Wilsoni' (Low Fruiting)	Trachycarpus fortunei
Cercis canadensis	Hymenosporum flavum	Olea europaea	Tristania conferta
Cercis texensis 'Oklahoma'	Jacaranda mimosifolia	Parkinsonia aculeata	Tristania laurina
Chilopsis linearis	Koelreuteria bipinnata	Persimmon 'Hachiya' / 'Fuyu'	Tristania laurina 'Elegant'
Chilopsis linearis 'Burgundy'	Koelreuteria paniculata	Prosopis chilensis	Ulmus parvifolia 'Athena'®
Chionanthus retusus	Lagerstroemia ind. 'Cherokee'	Prunus caroliniana	Ulmus parvifolia 'Bosque'®
Crataegus lae. 'Paul's Scarlet'	Lagerstroemia ind. 'Potomac'	Prunus serrulata 'Amanogawa'	Ulmus parvifolia 'Dynasty'
Crataegus phaenopyrum	Lagerstroemia ind. 'Twilight Purple'	Prunus serrulata 'Kwanzan'	

TREES: Small (10' - 20')

Small growing trees are used for home or commercial landscape projects where an accent is needed. The small scale of the trees allows them to be used as an integral part of the landscape design and quite often as their focal point. Many of these small scale trees can also be used in containers with other plant material.

Acacia aneura	Chamaerops humilis	Juniperus vir. 'Cupressifolius'	Photinia fraseri
Acacia latifolia (longifolia)	Citrus assorted dwarf	Juniperus vir. 'Skyrocket'	Pittosporum phillyraeoides
Acer buergeranum	Citrus assorted standard	Magnolia stellata 'Royal Star'	Pittosporum undulatum
Acer circinatum	Cordyline aus. 'Atropurpurea'	Malus 'Adams'	Podocarpus gracillior
Acer griseum	Cordyline australis	Malus 'Doubloons'	Prunus blireiana
Acer pal. 'Atropurpurea'	Cornus 'Eddie's White Wonder'	Malus floribunda	Prunus caroliniana 'Compacta'
Acer pal. 'Bloodgood'	Cornus florida	Malus 'Prairifire'	Prunus cer. 'Krauter Vesuvius'
Acer pal. 'Dissectum Atropurpureum'	Cornus florida 'Rubra'	Malus 'Robinson'	Prunus cer. 'Thundercloud'
Acer pal. 'Sango Kaku'	Cornus kousa	Malus 'Snowdrift'	Prunus serrulata 'Snow Fountain'
Acer pal. 'Seiryu'	Cotinus coggygria 'Purpureus'	Metrosideros excelsus	Prunus subhirtella 'Pendula'
Arbutus unedo	Eriobotrya deflexa	Myoporum laetum 'Carsonii'	Rhaphiolepis 'Majestic Beauty'
Bauhinia blakeana	Eriobotrya deflexa 'Coppertone' [™]	Nerium ole. 'Betty'	Rhaphiolepis 'Majestic Beauty'
Betula pendula 'Youngii'	Ilex altaclerensis 'Wilsonii'	Nerium ole. 'Red'	Vitex agnus-castus
Callistemon citrinus	Juniperus chi. 'Blue Point'	Nerium ole. 'White'	Yucca gloriosa
Cassia leptophylla	Juniperus chi. 'Spartan'	Olea eur. 'Petite Olive'	
Cercis occidentalis	Juniperus sco. 'Wichita Blue'	Phoenix roebelenii	

SHRUBS: Large (8' plus)

Large shrubs are primarily used as background interest for other materials. They can also be used singly or as a group to block a view or add character and scale to a featureless area in the landscape. Quite often this group is left unpruned. Some care in selection is prudent in smaller scale landscapes as these plants can become a dominant feature, but for large beautiful accents they cannot be beat.

Abelia grandiflora	Cornus stolonifera 'Flaviramea'	Juniperus vir. 'Cupressifolius'	Prunus laurocerasus
Abutilon pink	Cotoneaster lacteus	Juniperus vir. 'Skyrocket'	Prunus lusitana
Abutilon red	Dasyliroium longissima	Laurus nobilis	Prunus lyonii
Abutilon white	Dodonaea viscosa	Lavatera bicolor (maritima)	Punica granatum 'Wonderful'
Abutilon yellow	Dodonaea viscosa 'Purpurea'	Lavatera thuringiaca 'Barnsley'	Pyracantha coccinea 'Lalandei'
Acacia latifolia (longifolia)	Elaeagnus pungens	Leptospermum laevigatum	Pyracantha 'Graber'
Agave americana	Elaeagnus X ebbingei 'Gilt Edge'	Leptospermum sco. 'Helene Strybing'	Rhamnus alaternus
Aloe arborescens	Escallonia exoniensis 'Fradesii'	Leptospermum sco. 'Ruby Glow'	Rhamnus cal. 'Eve Case'
Alyogyne huegelii	Escallonia rubra	Leucophyllum fru. 'Green Leaf'	Rhaphiolepis 'Majestic Beauty'
Arbutus unedo 'Compacta'	Eugenia myrtifolia (Syzygium)	Leucophyllum frutescens	Rhododendron mix
Arctostaphylos man. 'Dr. Hurd'	Eugenia myrtifolia 'Compacta' (Syzygium)	Ligustrum lucidum	Rhus integrifolia
Bambusa mul. 'Alphonse Karr'	Euonymus alata 'Compacta'	Ligustrum japonicum 'Texanum'	Rhus ovata
Bambusa oldhamii	Euonymus jap. 'Aureo-Marginata'	Melaleuca nesophila	Schefflera pueckleri (Tupidanthus)
Banana (Ensete ventricosum 'Maurelii')	Euonymus jap. 'Aureo-Variagata'	Myoporum laetum 'Carsonii'	Solanum rantonnetii
Buddleia davidii 'Isle De France'	Euonymus jap. 'Silver Queen'	Myrica californica	Sophora secundiflora
Buddleia davidii 'Black Knight'	Euonymus japonicus	Nandina domestica	Sphaeropteris cooperi
Caesalpinia gilliesii	Feijoa sellowiana	Nerium ole. 'Betty'	Spiraea prunifolia
Caesalpinia mexicana	Forsythia int. 'Lynwood Gold'	Nerium ole. 'Red'	Spiraea X vanhouttei
Caesalpinia pulcherrima	Fremontodendron californicum	Nerium ole. 'White'	Strelitzia nicolai
Calliandra haematocephala	Garrya elliptica	Osmanthus fragrans	Syringa vulgaris
Callistemon citrinus	Grevillea 'Canberra'	Osmanthus het. 'Variegatus'	Tecoma stans
Camellia japonica pink	Grewia occidentalis (caffra)	Osmanthus heterophyllum	Tecomaria capensis
Camellia japonica red	Heteromeles arbutifolia	Philadelphus virginialis	Thevetia peruviana
Camellia japonica white	Hibiscus ros. sin. 'Butterball'	Philodendron selloum	Thuja occidentalis 'Emerald'
Camellia sas. 'Cleopatra'	Hibiscus ros. sin. 'Butterfly'	Photinia fraseri	Tibouchina urvilleana
Camellia sas. 'Hana Jiman'	Hibiscus ros. sin. 'Crown Of Bohemia'	Phyllostachys aurea	Vauquelinia californica
Camellia sas. 'Jean May'	Hibiscus ros. sin. 'Hula Girl'	Phyllostachys nigra	Viburnum burkwoodii
Camellia sas. 'Kanjiro'	Hibiscus ros. sin. 'Kona'	Pittosporum crassifolium	Viburnum japonicum
Camellia sas. 'Setsugekka'	Hibiscus ros. sin. 'San Diego Red'	Pittosporum eugenioides	Viburnum opulus 'Sterile' ('Roseum')
Camellia sas. 'Yuletide'	Hibiscus ros. sin. 'White Wings'	Pittosporum ten. 'Silver Sheen'	Viburnum suspensum

Ceanothus 'Dark Star'	Hibiscus syriacus violet	Pittosporum undulatum	Xylosma congestum 'Compacta'
Ceanothus 'Frosty Blue'	Ilex altaclerensis 'Wilsonii'	Podocarpus henkelii	Yucca aloifolia
Ceanothus 'Ray Hartman'	Ilex aquifolium 'Variegata'	Podocarpus macrophyllus	Yucca recurvifolia
Ceanothus 'Snow Flurry'	Ilex cornuta 'Burford'	Podocarpus macrophyllus maki	
Chaenomeles japonica 'Rubra'	Ilex cornuta 'Dazzler'	Prunus caroliniana	
Choisya ternata	Juniperus chi. 'Blue Point'	Prunus caroliniana 'Compacta'	
Citrus assorted dwarf	Juniperus chi. 'Spartan'	Prunus cistena	
Citrus assorted standard	Juniperus chi. 'Torulosa'	Prunus ilicifolia	
Cornus stolonifera	Juniperus sco. 'Wichita Blue'	Prunus lau. 'Zabeliana'	

SHRUBS: Medium (4' to 8')

Medium shrubs are the foundation planting of the landscape. They are generally the most decorative plants used today as accents or fillers in a planting bed. The range of color and texture in flowers or foliage available in this group is expansive. Quite often the entire style of the garden is defined by the careful selection of this choice material.

Abelia gra. 'Ed Goucher'	Camellia sas. 'Chansonette'	Hebe 'Coed'	Pennisetum setaceum
Agave parryi	Camellia sas. 'Mine-No-Yuki'	Hydrangea mac. blue	Phormium 'Atropurpureum'
Agave weberi	Camellia sas. 'Shishi-Gashira'	Hydrangea mac. pink	Phormium 'Bronze'
Anigozanthus flavidus	Camellia sas. 'Showa-No-Sakae'	Hydrangea mac. red	Phormium 'Maori Chief'
Anigozanthus hybrid orange	Canna hybrid	Hydrangea mac. variegated	Phormium 'Maori Queen'
Anigozanthus hybrid red	Carpenteria californica	Hydrangea mac. white	Phormium 'Sundowner'
Anigozanthus hybrid yellow	Cassia artemisioides (Senna)	Hydrangea quercifolia	Phormium tenax
Anisodontea hyp. 'Tara's Pink'	Cassia nemophila (Senna)	Ilex cornuta 'Burford Nana'	Pieris japonica 'Mountain Fire'
Aralia sieboldii	Cassia phyllodinea (Senna)	Ilex vomitoria 'Nana'	Pieris japonica 'Variegata'
Arctostaphylos den. 'Howard Mc Minn'	Ceanothus 'Joyce Coulter'	Jasminum mesnyi	Plumbago auriculata
Artemisia cal. 'Canyon Gray'	Ceanothus 'Skylark'	Juniperus chi. 'Pfitzeriana Glauca'	Plumbago auriculata 'Alba'
Azucuba japonica 'Variegata'	Cistus hybridus (cobariensis)	Juniperus chi. 'Sea Green'	Polygala dalmasiana
Azalea belgian 'Happy Days'	Cistus ladaniferus (maculatus)	Lantana camara 'Confetti'	Pyracantha koi. 'Santa Cruz'

Buxus mic. jap. 'Winter Gem'	Gardenia jas. 'Mystery'	Nerium ole. 'Dwarf White'	Viburnum tinus 'Spring Bouquet'
Buxus microphylla japonica	Gardenia jas. 'Veitchii'	Nerium ole. 'Mrs. Roeding'	Westringia rosmariniformis
Calliandra californica	Grevillea 'Noellii'	Nerium ole. 'Petite Pink'	Woodwardia fimbriata
Camellia sas. 'Bonanza'	Grevillea rosmarinifolia	Nerium ole. 'Petite Salmon'	

SHRUBS: Small (1' to 4')

Small shrubs can be found lining the front of a planting bed or even in containers as accents on a patio. Versatility is the primary function of this group. Many are pruned as a first line of defense in a heavily used landscape, while others are the featured plants prized for their flowers and foliage in season. Small shrubs can be maintained in almost any shape or size to complement the other material in the landscape.

Acacia redolens (ongerup)	Carissa mac. 'Tuttle'	Gardenia jas. 'Radicans'	Mahonia aquifolium 'Compacta'
Acanthus mollis	Ceratostigma plumbaginoides	Gaura lindheimeri	Microlepia strigosa
Agapanthus africanus	Chrysactinia mexicana	Gaura lindheimeri 'Siskiyou Pink'	Miscanthus sin. 'Morning Light'
Agapanthus africanus 'Albus'	Cistus salviifolius	Genista lydia	Miscanthus sin. 'Variegatus'
Agapanthus 'Dwarf White'	Cistus skanbergii	Helictotrichon sempervirens	Muhlenbergia capillaris
Agapanthus 'Peter Pan'	Cistus 'Sunset'	Hesperaloe parviflora red	Muhlenbergia rigens
Agapanthus 'Queen Anne'	Clivia hybrid	Hesperaloe parviflora yellow	Myrtus communis 'Compacta'
Agapanthus 'Storm Cloud'	Coleonema 'Sunset Gold'	Hypericum moserianum	Nandina dom. 'Firepower'
Agapanthus 'Tinkerbell'	Convolvulus cneorum	Imperata cylindrica 'Red Baron'	Nandina dom. 'Gulf Stream'
Agave attenuata	Convolvulus mauritanicus	Iris bearded mix	Nandina dom. 'Nana'
Aloe striata	Coreopsis lan. 'Early Sunrise'	Iris douglasiana	Nephrolepis cordifolia

GROUND COVER: Large (3' to 5')

Large ground covers are used in commercial situations for line definition and in areas where a taller ground cover is needed for a barrier or low screen. They are often used as the background for lower ground covers.

Acacia redolens (ongerup)	Camellia sas. 'Chansonette'	Cistus hybridus (cobariensis)	Plumbago auriculata
Bougainvillea 'La Jolla'	Camellia sas. 'Mine-No-Yuki'	Lantana camara 'Confetti'	Plumbago auriculata 'Alba'
Bougainvillea 'Raspberry Ice'	Camellia sas. 'Shishi-Gashira'	Lantana camara 'Radiation'	Westringia rosmariniformis
Bougainvillea 'Temple Fire'	Camellia sas. 'Showa-No-Sakae'	Lantana camara 'Yellow'	Westringia 'Wynabbie Gem'
Camellia sas. 'Bonanza'	Ceanothus gri. hor. 'Yankee Point'	Lavandula dentata	

GROUND COVERS: Medium (2' to 3')

Medium ground covers can be used as erosion control on slopes and for major ground cover in commercial projects. They can be used also in home landscapes under trees and for most situations. Their decorative quality gives this group the most versatility in the landscape.

Abelia gra. 'Prostrata'	Coprosma petriei 'Verde Vista'	Juniperus sab. 'Broadmoor'	Nephrolepis cordifolia
Achillea 'Moonshine'	Correa 'Carmine Bells' (Dusky Bells)	Lantana camara 'New Gold'	Nolina microcarpa
Agapanthus africanus	Correa 'Ivory Bells'	Lavandula angustifolia	Parthenocissus quinquefolia
Agapanthus africanus 'Albus'	Cotoneaster horizontalis	Lavandula intermedia 'Grosso'	Pennisetum setaceum
Agapanthus 'Queen Anne'	Cotoneaster microphyllus	Lavandula intermedia 'Provence'	Pyracantha 'Dwarf Red'
Agapanthus 'Storm Cloud'	Gardenia jas. 'Radicans'	Lavandula stoechas 'Otto Quast'	Pyracantha coccinea 'Lowboy'
Arctostaphylos 'Pacific Mist'	Hemerocallis orange	Liriope gigantea	Rosa ground cover
Artemisia 'Powis Castle'	Hemerocallis pink	Lonicera japonica 'Halliana'	Rosmarinus off. 'Collingwood Ingram'
Baccharis pilularis 'Twin Peaks'	Hemerocallis purple	Muhlenbergia capillaris	Sollya heterophylla
Cistus salviifolius	Hemerocallis red	Muhlenbergia rigens	Trachelospermum jasminoides
Cistus skanbergii	Hemerocallis yellow	Nandina dom. 'Harbour Dwarf'	
Coprosma kirkii	Juniperus chi. 'Old Gold' (Gold Coast)	Nassella tenuissima (Stipa)	

GROUND COVERS: Small (less than 2')

Small ground covers can be used where vertical space is limited and barriers are not required. Many of these varieties can be walked upon at times with minimal damage. This is a very versatile group and can be used to cover considerable amounts of space or a small area depending upon the variety.

Acacia redolens 'Low Boy'	Cuphea hyssopifolia	Iberis sempervirens	Myoporum 'Putah Creek'
Achillea millefolium	Dalea capitata	Juniperus chi. procumbens 'Nana'	Nepeta faassenii

HEDGES: Medium (4' to 6')

Medium hedge material is the most versatile category in landscape design. It can be used to define a space, for barriers, and for many other uses either in groups or in hedgerows. The visual impact of this class is considerable due to the height they can grow to and be maintained by pruning, and their creative placement in the landscape project.

FERNS

Think of tropical jungles and ferns will come to mind. Most are native to the moist areas near streams in all parts of the world. They exist as low ground covers all the way to large tree ferns that can grow over 10" tall. Ferns can be used under trees and in shaded areas in combination with other shade lovers to give a lush tropical look to the landscape.

Cyrtomium falcatum	Nephrolepis cordifolia	Sphaeropteris cooperi
Dicksonia antarctica	Polystichum munitum	Woodwardia fimbriata

GRASSES

The use of grasses in the landscape has increased in recent years due to their invaluable cultural and textural contributions. Tolerance of many adverse conditions or locations is one of their most important attributes. Grasses exist in nearly all colors and sizes with the added treats of flowers and interesting color in the fall. Their soft textures combined with their movement in slight winds gives a fresh look to modern landscapes.

PERENNIALS

Perennials are a broad group of plants that add seasonal interest to the landscape. They exhibit color and texture in flower or foliage over a long period. Many are year-round performers and others will die to the ground each cold season to be reborn in the spring. Perennials exist for almost any climate or location in the West and are some of our most colorful and versatile plants.

VINES

Vines are limber plants that can be used to cover walls and fences as well as arbors and other structures. They climb in different ways. Some will attach themselves to wood or stucco while others will need support to direct their growth. Nearly all will attain a large size if not controlled. This group includes some of the most decorative plants with large displays of color over a long period.

Bougainvillea spectabilis	Hedera helix 'Hahn's Self- Branching'	Rosa banksiae 'Lutea'	

FALL COLOR

Many deciduous trees and shrubs, even some evergreen materials, exhibit bright colors on the foliage with the cold weather. Deciduous trees are famous the world over for the display in New England in the fall. Some evergreen materials hold the color through the winter to be replaced with new foliage in the spring. Color intensity varies by variety and by geographic location.

NATIVE PLANTS: California and Southwest

Native material is increasingly important in the landscape today. Many cities and counties are requiring their use as a percentage of commercial projects in support of reforestation efforts. These plants can be used successfully in most areas of California (and the Southwest where noted). Avoid extreme climates without checking hardiness of the specific plant.

SEACOAST CONDITIONS

Direct contact with the ocean air and soil are the determining factors for this list. These plants can withstand the wind, fog, and salty conditions adjacent to or directly influenced by the ocean. Many have little cold hardiness and will be damaged if placed far from the ocean.

DESERT CONDITIONS

This material is selected to be resistant to the heat and dry qualities of the desert environment. Cold hardiness depends on the type of desert (high or low). For the most part, the plants represented here are selected for mild low-desert locations where concerns with heat and dry tolerance are foremost. Exposure will dictate usage in this climate.

DROUGHT RESISTANT

Drought resistance pertains to mature plantings and not freshly planted material. Little, or in some cases no additional water is required during the summer months once these varieties have matured in the landscape. Extreme climates may dictate some extra watering during the long hot months. Extra water can be given for better growth and many can tolerate regular garden watering.

COLD HARDY

This material is resistant to frost in the colder areas (down to Sunset Zone 3) that are landscaped: excluding the most severe weather in the high mountain coldest zones (Sunset Zones 1 and 2). Most of this material is also adaptable to other temperate zones and is used widely in the landscape industry. Where houses and commercial projects are being built, this material will stand through the average winter low temperatures. Placement and/or exposure to cold in the project will determine if the material will survive. Hardiness varies according to how cold it gets and how long it stays cold. Plants in containers are less cold hardy than the same plant that has established itself in the ground. Please refer to the pricing guideline in this catalog for the specific zones for each plant.

SHADE TOLERANT

Shade tolerance is a very subjective category. The tolerance depends upon geographic and climatic variables to determine the best location for the plant. In placement of this type of material, it is best to consider average conditions, and to add more shade in hotter climates and less shade in the cool coastal environments for optimal growth.

DEER RESISTANT

These plants have been shown to be the most resistant to the browsing of deer without the use of repellants. Granted in times of scarce food the deer may taste some of these materials, but in general conditions, these are resistant.

FIRE RETARDANT

These materials have been observed to resist the ravages of fire in the landscape. The West has history of many disastrous wildfires which have claimed many homes. The use of fire resistant plants near structures in conjunction with sound fuel reduction practices can reduce the threat to structures in the future.
